DETAILED ACTION

Response to Arguments

Applicant's arguments, see pages 2-6, filed 4/21/2009, with respect to claims 20-21 and 39-40 have been fully considered and are persuasive. The rejection of claims 20-21 and 39-40 has been withdrawn.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas Basso on 8/12/2009

The application has been amended as follows:

Please cancel the claims 22-38.

Reasons for Allowance

2. Claims 20-21 and 39-40 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The closest prior art of record (JP 06-132038) do not anticipate or suggest or render obvious the invention as recited in the independent claim.

While JP '038 teaches a gas humidification equipment comprising hydrogen inlet, neither JP '038 nor the remaining prior art of record would reasonably lead one of ordinary skill in the art to arrive at the invention as currently claimed. For example, the prior art of record does not reasonably teach or suggest of the claimed hydrogen gas humidity control apparatus comprising a first hydrogen flow path or chamber thereof to which at least hydrogen gas is supplied; a second hydrogen flow path or chamber thereof to which at least hydrogen gas is supplied; and a moisture carrier for separating the first hydrogen flow path or chamber thereof from the second hydrogen flow path or chamber thereof and for allowing at least one of water and water vapor to pass therethrough, wherein the first hydrogen flow path or chamber is simultaneously in contact with: (i) a proton conductor membrane electrode assembly on a first side; and (ii) the moisture carrier on an opposite side. And there is nothing taught by the prior art of record to reasonably arrive at the claimed configuration.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MUHAMMAD SIDDIQUEE whose telephone number is (571) 270-3719. The examiner can normally be reached on Monday-Thursday, 7:30 am to 4:00 pm EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick Ryan can be reached on 571-272-1292. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
